01

Camera and phone settings

Before you start: **wipe the lens** on the camera and on the phone.

Camera

- [ ] 4K, camera turned vertical (90°) on the tripod
- [ ] 25 fps
- [ ] On a tripod: stabilisation off

Phone

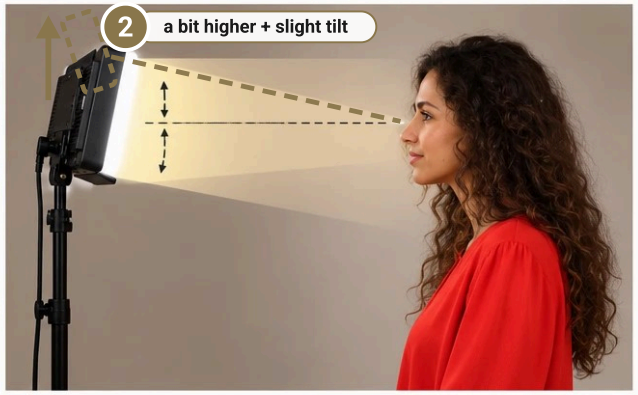

- [ ] Video 4K · vertical 9:16
- [ ] 25 fps, same as the camera (iPhone: Settings → Camera → Record Video → Show PAL Formats)
- [ ] Stabilisation on (no shake)
- [ ] Long press on the face to lock focus and exposure
- [ ] Airplane mode, enough battery and storage
- [ ] Photos: portrait mode

02

Light scheme

So the picture is not too dark, use the LED panels. Place them like this.

1. About 1 m from each face, just outside the frame.
2. 10–20 cm above the eyes, slight tilt down.

- Set the panels to the same warm colour as the shelf lights.

03

B-roll

Before and after the interview, film a few short shots. Hold each one about 10 seconds. Examples:

The guest walks in

Greets the host

The two talking

04

Photos of the guest

This is only an example: any pose works.

- [ ] A few portraits of the guest
- [ ] Different poses: arms crossed, hands in pockets, smiling, serious
- [ ] Close-up and from head to waist
- [ ] Vertical, portrait mode
- [ ] In front of the wine wall
