01

Camera and phone settings

Before you start: **wipe the lens** on the camera and on the phone.

Camera

- [ ] 4K · 3840×2160 · horizontal 16:9
- [ ] 25 fps
- [ ] Stabilisation on (no shake)
- [ ] White balance manual, ≈3200 K like the shelves
- [ ] Focus and exposure locked on faces

Phone

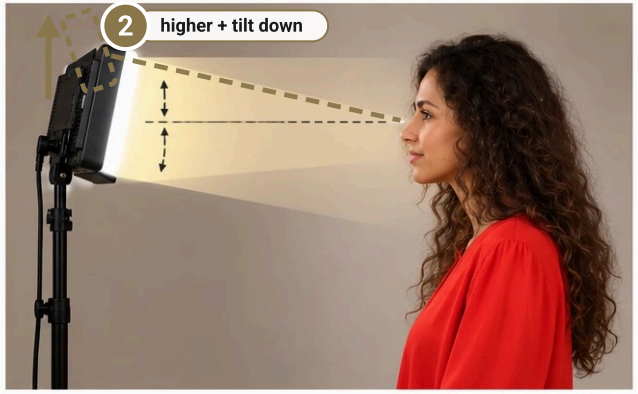

- [ ] Video 4K · 25 or 30 fps
- [ ] Stabilisation on
- [ ] Long press on the face to lock focus and exposure
- [ ] Airplane mode, enough battery and storage
- [ ] Photos: portrait mode

02

Light scheme

1. About 1 m from each face, just outside the frame. These panels are weak, so keep them close.
2. 20–40 cm above the eyes, tilted down 15–30°.
3. Zhiyun M20C behind the guest, out of frame, barn doors on.

- Keep the room lights on. Panels on the same colour as the shelves (≈3000–3500 K).
- Check reflections in glasses, bottles and wine glasses. If you see the panel, move it up or to the side.

03

Photos of the guest

This is only an example: any pose works.

- [ ] Several portraits of the guest, at least 10 photos
- [ ] Different poses: arms crossed, hands in pockets, smiling, serious
- [ ] Close-up and from head to waist
- [ ] Vertical, portrait mode
- [ ] In front of the wine wall
